AN

“ *This is my grandfather, Mr. Edward Stephens when he was first in the Military and later in the 70s on vacation with my grandmother and their friends. The BEST cook and grandfather ever! I love you!*

“ This man was/is my grandfather that raised me w/ my grandmother from an infant to an young adult. He was the BEST grandfather in which I could have ever asked! Being born in the 70s, my grandmother and grandfather, Edward were very progressive and way ahead of the times. He showed me how a man is supposed to love and treat a woman, my grandmother, and he taught me so many things from cooking, driving, fixing sinks, changing the car oil, hanging Christmas lights, yard work, etc. He allowed me to be the tomboy little that I was, even taught me how to throw a football and put me through boot camp at 5 or 6 years old lol, because I wanted to be in the military like he was before retiring. He cooked meals everyday for our entire family and everyone loved his cooking, as he learned to cook when he first entered the navy. Well respected and tough as nails, my grandda as I called him is truly and sorely missed. I just wish we had time together towards the end of his time here. I love you so much and thank you grandda! ❤️
